

CAELAN MORIARTY

*I think I am very lucky to be where I am now,
and I am always grateful to the people around me.*

Since he was little, Caelan lived in many countries because of his father's business who was an Irish American. Caelan was born in a military base in Cuba, then lived in Virginia Beach, Spain, Hawaii and Japan. Growing up in diverse cultures, Caelan is curious and interested in all things. He is the youngest in the group and is the young brother figure who is innocent and fun loving. He sets the mood for the group by always being fun and making other members laugh.

"My taste for music is influenced by various cultures of the countries I've live in. I listen to different genres like R&B, Hip Hop, Rap, Dance and so on." He says. "I want to keep challenging to do different things in the future, and I want to get as much experience as possible for both music and life." Caelan is a boy with unknown possibility. His core value is 'to always have gratitude.' "I think I am very lucky to be

where I am now, and I am always grateful to the people around me." He looks like he is not a deep thinker, but Caelan is aware of his situation and is mature in some aspects. Such unpredictability is one of his charms.

When asked of his role in the group, he confidently said "I think my features like good dancer, funny boy, and so on is giving a unique characteristic to the group." Other than music, Caelan has a wide range of interest of many genres like movie, swimming, golf, taking the train, photography, graphic, and art appreciation. He seems to fall in love with different type of girls every time, and expresses himself as "picky." Caelan's favorite food is HARIBO and on the first day he met his manager, he gave it as a gift. This is also a cute episode that well express Caelan's sweet characteristic.
